PRODUCT

The new RUYAN *e-Gar*[®] is the latest addition to the RUYAN series. The E-Cigar not only shares the innovative characteristics of previous products in the RUYAN series, but also has its own unique and innovative features.

PRODUCT COMPONENTS

The RUYAN *e-Gar*[®] is disposable. It contains a disposable, non-rechargeable battery, a sensor, vaporizer and cartridge in one unit. It also has an LED at the front as an indicator of working conditions.

NICOTINE

The cartridge in the RUYAN *e-Gar*[®] contains nicotine. Nicotine is a natural alkaloid extracted from the leaves of a variety of plants, including tobacco, and it is the substance that causes smokers to become addicted.

The RUYAN *e-Gar*[®] delivers nicotine and tobacco flavoring and is designed to be a substitute for smoking. It contains no tobacco, but be advised that nicotine

itself is addictive. It does not produce tobacco smoke or smoke of any kind; it produces a vapor primarily made up of water and other safe ingredients. **This product is not intended to be a drug product that diagnoses, treats, cures, prevents or mitigates any disease or condition. Do not use this product if you are under the age of 21; if you are a non-smoker; if you have a demonstrated sensitivity to nicotine; or if you are pregnant or nursing.**
